

# Slip Connector

Repairs damaged pipe easily, particularly in confined spaces, slip end allows flexible adjustment

## Overview

Speedfit plastic push-fit fittings used to easily and quickly repair damaged pipe with a slip end connection for flexible adjustment. Simply push the fitting fully onto plastic or copper pipe. To demount the connection, push the collet towards the body of the fitting and pull the pipe to release.

The fitting is up to 40% faster to install than traditional methods and is easier to use in confined spaces by removing the need for hot works and tools.

Designed, manufactured and assembled in the UK.

## Features & Benefits

- Instant push-fit connection
- Install and demount in seconds without tools
- Safe flame-free installation, with no hot works, glue or flux
