## Polypropylene Equal Straight Connector

## Quickly and easily connects two equal imperial pipe sizes

## Overview

John Guest push-fit polypropylene straight connector fitting connects two imperial pipes/tubes of an equal connection size. Fast and simple to install, John Guest push-fit fittings create an instant push-fit connection and leak tight seal without the need for tools, hot works or sealing agents.

The unique collet locking design firmly and securely holds the pipe in place without deforming the pipe or restricting flow. Fittings are corrosion resistant and fully demountable, improving system performance and reducing system downtime during maintenance.

Manufactured in polypropylene with EPDM O-Rings, the fitting offers greater chemical resistance than push-fit acetal and is suitable for potable water ( 10 bar at $20^{\circ} \mathrm{C}$ ) and intermittent hot water applications ( 4 bar at $60^{\circ} \mathrm{C}$ ), as well as water treatment and purification applications. All John Guest fittings are manufactured and assembled in the UK.

## Features \& Benefits

" Polypropylene material and EPDM O-Ring offers high chemical resistance
" Suitable for potable water, intermittent hot water (up to $65^{\circ} \mathrm{C}$ max) water treatment and purification applications (Not suitable for compressed air or vacuum applications)
" Instant push-fit connection and leak tight seal
" Connect, disconnect and reconnect in seconds without tools

- No scale build up improves performance and equipment lifespan

Superior flow characteristics
" Compatible with LLDPE or soft metal pipe/tube

| Product Code | Description | Size |
| :--- | :--- | :---: |
| PP0408W | Equal Straight Connector | $1 / 4^{\prime \prime}$ |
| PPM0408W | Equal Straight Connector | $5 / 16^{\prime \prime}$ |
| PP0412W | Equal Straight Connector | $3 / 8^{\prime \prime}$ |
| PP0416W | Equal Straight Connector | $1 / 2^{\prime \prime}$ |

## Polypropylene

## Equal Straight Connector

| Application |  | Maximum working <br> temperature ${ }^{\circ} \mathrm{C}$ | Maximum working <br> pressure, bar |
| :--- | :--- | :--- | :--- |
| Potable Water |  | 20 | 10 |
| Intermittent Hot Water | 60 | 4 |  |
|  | Polypropylene |  |  |
| Materials | EPDM |  | Application |
| Body | Polypropylene |  | Potable Liquid |
| O-Ring | Stainless Steel 301 |  | Not Suitable for Compressed Air \& Vacuum |
| Collet |  |  |  |
| Collet Teeth |  |  |  |
