

White Acetal Equal Straight Connector

Quickly and easily connects two equal imperial pipe sizes

Overview

John Guest white push-fit acetal equal straight connector fitting connects two imperial pipes of an equal connection size. Fast and simple to install, John Guest push-fit fittings create an instant push-fit connection and leak tight seal without the need for tools, hot works or sealing agents.

The unique collet locking design firmly and securely holds the pipe in place without deforming the pipe or restricting flow. Fittings are corrosion resistant and fully demountable, improving system performance and reducing system downtime during maintenance.

Manufactured in white push-fit acetal copolymer with EPDM O-Rings, the fitting is suitable for potable water, intermittent hot water applications (up to 65°C max), water treatment and purification applications. All John Guest fittings are manufactured and assembled in the UK.

Features & Benefits

- Rigid and hardwearing acetal copolymer material with EPDM O-Ring
- Suitable for potable water, intermittent hot water applications (up to 65°C max), water treatment and purification applications (not suitable for air, pneumatic or vacuum applications)
- Instant push-fit connection and leak tight seal
- Connect, disconnect and reconnect in seconds without tools
- No scale build up improves performance and equipment lifespan
- Superior flow characteristics
- Compatible with LLDPE or soft metal pipe/tubing

Product code	Description	Size
CI0408W	Equal Straight Connector	1/4"
CI0412W	Equal Straight Connector	3/8"

Materials

Body	Acetal Copolymer (Unfilled) White
O-Ring	Nitrile, Black
Collet	Acetal Copolymer (Unfilled)
Collet Teeth	Stainless Steel 301
Thread Seal	EPDM

Application

Potable Liquid
Water Purification
Water Treatment
Intermittent Hot Water (up to 65C)
!Not Suitable for Air or Vacuum Applications
